LI HUNG CHANG.

LONDON, Aug. 15.  
Li Hung Chang denies that the Tsung-li-Yamen (Chinese Foreign Office) has been truckling to Russia in order to bring about the humiliation of Great Britain.

It is reported that Lord Salisbury contemplates demanding the dismissal of Li Hung Chang from the office of Viceroy.

**RUSSIAN PRESS COMMENTS.**

LONDON, Aug. 15.

The Russian newspapers refer in complimentary terms to the speech delivered by Sir William Harcourt, leader of the Opposition, upon the Chinese question. They also command Lord Salisbury's policy.

The "Journal de St. Petersburg," a semi-official organ, states that the English newspapers have been misinformed with regard to recent events in China. It is declared that Russia has no intention of infringing the economic interests of Great Britain.

**THE UNITED STATES.**  
NEW SECRETARY OF STATE.

LONDON, Aug. 15.  
The "Daily News" states that Colossal John Hay, the United States Ambassador to Great Britain, will succeed Mr. W. R. Day as United States Secretary of State.

It is reported that either Mr. Chauncy Depew or Mr. Whitehead Reid will be likely to succeed Colonel Hay as the United States Minister in England.

**BRITISH ARMY MANOEUVRES.**

LONDON, Aug. 16.  
Army manoeuvres will last for three weeks, and in which 50,000 men are taking part, have been commenced upon Salisbury Plain.

**MR. HOOLEY'S BANKRUPTCY.**

**FURTHER DISCLAIMERS.**

LONDON, Aug. 16.  
In the matter of the bankruptcy of Mr. E. T. Hooley, the whole of the time of the Court was taken up yesterday in hearing disclaimers from Mr. Beall Currie (manager of the Bolivian Company), Sir Edward Sullivan, and others with regard to evidence given by Mr. Hooley.

**TRAGEDY IN AMERICA.**

**EIGHT PERSONS KILLED.**

LONDON, Aug. 15.  
A conflict resulting in the loss of eight lives has taken place in Georgia, United States, between a force of police and a body of gamblers.

The police made a raid upon a negro gambling house. Resistance was offered, and firearms were brought into use.

Two hundred shots were fired, and eight people were killed.

**ANOTHER CONSPIRACY CHARGE.**

LONDON, Aug. 16.  
Sir Alfred Kirby, Mr. Arthur Kirby, and Mr. M. J. Clifford have been charged at the instance of the liquidator of the Coolgardie Mine and King Company with conspiracy and false pretences. On being brought before the police court the case was adjourned.

**THE POPE'S ORDERS.**

LONDON, Aug. 15.  
In accordance with the Pope's orders, Dr. Walsh, Archbishop of Dublin, has declined to attend the laying of the foundation stone of a memorial to Theobald Wolfe Tone, in Glasnevin Cemetery. Dr. Walsh has, however, sent £20 to the fund for the memorial.

Aug. 16.  
All sections of the Irish Party, including the Nationalists, united yesterday in an enormous demonstration of the centenary at Dublin of Wolfe Tone's death.

Included in the demonstration were special deputations from the Continent, Australia, Africa, and America. A huge procession was formed and visited Tone's birthplace, passing it in processional order.

Theobald Wolfe Tone was born in Dublin in 1763. He was an ardent sympathizer with the cause of French revolution, and had promoted the combination of Irish Catholics and Dissenters, he founded the Society of United Irishmen in 1791. He sailed for France in 1790, after a voyage to America, and became brigadier in Hosier's projected expedition to Ireland. He was captured on board a French vessel in 1797, and in 1798 was captured by the British. He was condemned to death as a traitor, and was executed at Tyburn. Tone was brought to Dublin and sentenced to death by a court-martial, but committed suicide in prison November 19, 1798.

**CORRESPONDENCE WITH CUBA.**

The Duke of Manchester and the Earl of Killamarsh left for Melbourne to-day.

The outer harbours now complete, including those in secret language, may now be sent to the West Indies, except to Cuba and Porto Rico.

There is no further news from Flinders Island, but the steamer Amy is expected to morrow with the two survivors of the C. G. Finch, and the North Queensland Insurance Company have been endeavoring to charter a vessel to proceed to the scene of the wreck, but so far unsuccessfully.

The examination of Mr. A. L. Harrold, in connection with the Harold Brothers' bankruptcy, by Mr. Baker, solicitor for the trustee, after extending over 28 days, concluded to-day.

LONDON, Aug. 16, 7.50 a.m.  
It is reported in New York that Manila has fallen.

General Augusti, the Governor-General of the Philippines, who is returning to Madrid, has arrived at Hongkong. A German warship brought him from Manila.

10.30 a.m.  
Rear-Admiral Dewey bombarded Manila on Saturday. He then sent a flag of truce ashore demanding its surrender unconditionally. His proposal was agreed to, and the capitulation was made.

During the bombardment General Augusti, the Governor-General of the Philippines, escaped in a German launch.

**TRANQUILLITY AT MADRID.**

LONDON, Aug. 16.  
Complete tranquillity prevails at Madrid. The dominant note of the newspapers in regard to the terms of peace is one of philosophical resignation at the result of the war.

**MACKAY COFFEE ESTATE COMPANY.**

BRISEBANE, Tuesday.  
Much concern is felt at Mackayshire regarding the Mackay Estate Company, Limited, which left Edens in ballast on 21st ultimo for Malacca Islet, but no trace of her has been heard of. There is now scarcely any room for doubt that she founders between Gobo and Talibago Islands, probably just after rounding Gobo. She was the most valuable vessel belonging to her owners. As her diary and log book have been picked up on Talibago Island, it is feared that the two poor fellows aboard, Captain Mortimer and Lawton, both of Mackay, have perished.

In the Supreme Court, before Mr. Justice Reel and two masters, the appeal has been heard in connection with the appeal by lessees against the lease of the Island of Bimini, addressed by the late Lord Bimini.

Mr. James Stodart was re-elected chairman for the ensuing 12 months. Mr. N. W. Williams, of Mackay, was appointed to the committee of the Colonial Lyster, who resided there. The details of the lease have not been published.

## FARM AND STATION NOTES.

(BY OUR SPECIAL CORRESPONDENT.)

## SYSTEMS OF FARMING.

It will be conceded by most people interested in agriculture that the system of husbandry adopted in his system of farming has in the long run the greatest chance of success. By this I do not mean or allude to the individual of stable spirit, or possibly dull intellect, who sees no necessity for change, but is perfectly satisfied with old modes of husbandry, because they are habits of old style, probably, because they are safe, and did very well for those who came before him. Such farmers, unless highly favoured by fertility of soil, or other fortuitous circumstances, which gives them an advantage over others in the same business, must go down, it is my opinion, in the end, unless they are possessed of some knowledge which will answer their present wants, and their successors the men who by possessing more, see the necessity of availing themselves of all the advantages and labour-saving appliances which a progressive age has placed within their reach.

A mode of farming which combines regularity in the quantity of crop raised, and regulates number of both summer and winter, must obviously be a much safer system for a farmer to follow than that which attempts a change in one or more of its departments every other year. When a system is followed with unvarying regularity, for successive years, the result is that the farmer's mind is free from the task of learning his business thoroughly.

He finds out the best market for his produce, or may even succeed in making a local market for some portion of it; he can calculate almost the exact amount of food required and balance his animals accordingly.

Then comes the problem of what to do as possible, all the elements of good husbandry, is the essential basis for the cultivator of the soil.

I altogether disbelieve in the renewing influence which stock exert pasturage land which has been laid down in poor condition, although it is an idea which has been popularly accepted.

Committed for Trial.—At the Central Police Court yesterday, Mr. Edwards, S.M., committed for trial Edward Williams, 39, for stealing a box of tea, valued at £1, belonging to John Harvey and Co. Edward Williams was also committed for the offence of being drunk in company of a box of tea, valued at £1, belonging to John Harvey and Co.

Alfred J. McGuiness, 27, was sentenced to one month's imprisonment at the Central Police Court yesterday.

Assaulting the Police.—Mark Reynolds, 24, for assaulting Constable Gilbert, was remanded for trial at the Central Police Court yesterday.

Subjected to Fire.—In the Charge Division of the Water Police Court yesterday, over which Mr. C. Doherty, S.M., presided, James Shepherd, 42, was proceeded against on a charge of having a quantity of wood and coal in his possession which he was suspected of having obtained by force or threat.

He was remanded for trial at the Central Police Court yesterday.

Alleged Breaking and Entering.—Ernest Edward Watson, 21, was charged with breaking and entering into a house, and was remanded for trial at the Central Police Court yesterday.

Unlawful Possession.—At the Charge Division, before Mr. C. Doherty, S.M., a man named James Shepherd, 42, was charged with having an unlicensed cane in his possession, and was remanded for trial at the Central Police Court yesterday.

FARMERS' FLOCKS.

The farmers of this colony have hitherto given but little attention to growing wool and mutton.

(Of course, a considerable number of our farmers

do a fair head of sheep on their places, but they have never, as a rule, attempted to make this class of stock a feature of their system.)

On the other hand, a sensible neglect is not easy to explain, but doubtless there has been reasons for it somewhere.

Several reasons might be suggested, and chief among these are the following:—

1. The cost of feeding, the cost of labour, and the cost of marketing.

2. The difficulty of getting a market for the meat.

3. The difficulty of getting a market for the wool.

## MONETARY AND COMMERCIAL.

Tuesday Evening.

Business in the Stock and Share market to-day was without any very noteworthy feature. What little movement occurred was upward. Government securities were unaltered, and no new issues were made. There was no alteration in hand, and the credit stocks of the banks also remained unaltered. North Coast Steamer continue to move at 17s. Insurance were negligible, quotations remaining as before. Albany (Gadigal) had a buyer at an advance of 6d; and 6s over the up-1s. Australian, also selling 6d over the last quoted. New South Wales was unchanged. Bank Hill Water Supply 2s 1d was offered, an advance 1d; Silvertown Tram were slightly weaker; Permanent Trustee sold at 2s 4d, and Harrison, Jones, and Devlin, Limited, 1s 1d. The Sydney Stock Exchange the following rates were reported:—At 1 o'clock: Australian Gadigal, 6s 18s 6d; Permanent Trustee, 2s 4d; Harrison, Jones, and Devlin, 1s 1d; Bank of New South Wales, 3s 5s; and Stock Commercial Bank of Sydney, 2s 2d. Next Coast Steamer, 1s. The closing quotation was:—

### BREADSTUFFS.

The local market is being very much depressed by the low prices at which both wheat and flour are being offered from Victoria. Wheat can be landed from the southern capital at the equivalent of 3s 4d Darling Harbour delivery, and there does not appear to be any marked increase in the price of wheat.

Fresh wheat is also at a very low level indeed, especially by railers. Victorian flour of good brands is offering in considerable parcels at £s 10s. Malvern, or £s 10 cash demand drafts, which makes a shade more on bakers' terms. The difference in price of city flour is also very great, £s 10s. Last week Melbourne millers have recently been in Sydney, and it is expected that conditions from that quarter will continue very severe indeed. The Victorians have evidently been scared at the prospect of the intercolonial markets getting glutted, and have determined to take time by the forelock. Wheat cannot be quoted at over 1s 6d each, and small lots are offered at 1s 4d per bushel, a shade above 1s 2d.

We have received from the Holloway Commissioners figures showing the quantities of wheat stacked at country railway stations. The return for the past three weeks may be summarized as follows:—

Number of bags, No. of bags, No. of bags July 10th. Aug. 1st. Aug. 15th.

Hanmer, 1,000 1,000 1,000  
City 940,000 10,000 1,000  
Port of Alfred 1,000 1,000 1,000

Union 1,000,000 1,000 1,000

Total 1,000,000 1,000 1,000

It is evident that the market is glutted, and the grain is being held up.
